Michigan 48105. Telephone: (313) 741-  
7817.

#### SUPPLEMENTARY INFORMATION:

##### Background

Section 211(k) of the Clean Air Act, as amended (Act), requires that EPA promulgate regulations establishing the requirements for a reformulated gasoline program. EPA is holding a series of workshops to expedite the development and promulgation of a rule establishing a complex emission model for the reformulated gasoline program. All workshops in the series will be open to the public. The first such workshop was held in Ann Arbor, Michigan, on Wednesday, January 22 and Thursday, January 23. The purpose of the workshops and supplementary information regarding the workshops can be found in 57 FR 2068 (January 17, 1992).

##### Public Workshop

The February 18 workshop is the second in this series of public workshops. It will include the following topics:

- Review of current and planned testing programs:* This topic will include a review of recent results from ongoing or recently completed testing programs. It will also include a review of planned future testing activities. EPA will present the results to date of its Reformulated Gasoline testing program. Other organizations are requested to present their results.
- Review of existing emission models:* This topic will focus on emission models currently being developed. The methods used to develop each model will be discussed, focusing on the selection of data for inclusion in each model and the specific analytical and statistical methods used to develop each model. Where possible, predicted results from the models presented will be compared to available data; discrepancies between model predictions and test data will be discussed and steps to resolve those discrepancies will be identified.

Other presentations for existing vehicle testing programs and modeling efforts are encouraged. Those interested in making such presentations should notify Michael Sklar at (313) 741-7817 of such intent at least three days before the workshop. The contact person also should be provided an estimate of the time required for the presentation of the testimony and notification of any need for audio/visual equipment. Questions will be taken after each presentation.

##### Public Participation

As in past rulemaking actions, EPA strongly encourages full public participation in the development and assessment of information that will be used in developing a final rule. This workshop will help determine the methods used by the Agency in developing the complex model rule as well as the content of the proposed rule, and EPA welcomes public input regarding the rule and the methods most appropriate for use in developing the model.

EPA suggests that enough copies of the material for presentation be brought to the workshop for distribution to the audience. EPA anticipates attendance of 100 to 150 people. In addition, it will be helpful for EPA to receive an advance copy of any material for presentation before the scheduled workshop date so as to allow EPA staff to give such material full consideration.

Mr. Charles Gray, Director of the Emission Control Technology Division of EPA's Office of Mobile Sources will chair the workshop. The workshop will be conducted informally, and technical rules of evidence will not apply.

Dated: February 7, 1992.

[FRL-4102-6]

##### National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

**AGENCY:** Environmental Protection Agency.

**ACTION:** Revised notice of intent to delete from the National Priorities List; request for comments.

**SUMMARY:** The Environmental Protection Agency (EPA) Region IV announces its intent to delete the Lees Lane Landfill Superfund site (Site) from the National Priorities List (NPL) and requests public comment on this action. On May 16, 1988, EPA issued a notice announcing its intent to delete this site and others. The notice is being revised to correct certain inaccuracies made with respect to the Lees Lane Landfill Site. The NPL constitutes appendix B to the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), which EPA promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability

Act (CERCLA), as amended. EPA and the Commonwealth of Kentucky have determined that all appropriate CERCLA response actions have been implemented and that no further cleanup is appropriate. Moreover EPA and Kentucky determined that response activities conducted at the Site to date have been protective of public health, welfare, and the environment.

Deletion of sites from the NPL does not itself create, alter, or revoke any individual's rights or obligations.

**DATES:** Comments concerning this Site may be submitted on or before March 16, 1992.

**ADDRESSES:** Comments may be mailed to: Derek Matory, RPM, Waste Management Division, North Superfund Remedial Branch, Environmental Protection Agency, Region IV, 345 Courtland Street, NE., Atlanta, GA 30365.

Comprehensive information on the Site is available through the EPA Region IV public docket, which is located at EPA's Region IV office and is available for viewing by appointment only from 9 a.m. to 4 p.m., Monday through Friday, excluding holidays. Requests for appointments or copies of the background information from the Regional public docket should be directed to the EPA Region IV docket office.

The address for the Regional Docket office is: Pricilla Pride, Region IV, USEPA, Library, room G-8, 345 Courtland Street, NE., Atlanta, GA 30365.

#### SUPPLEMENTARY INFORMATION:

Table of Contents

I. Introduction.

II. NPL Deletion Criteria.

III. Basis for Intended Site Deletions.

##### I. Introduction

The Environmental Protection Agency (EPA) Region IV announces its intent to delete the Lees Lane Landfill Site from the National Priorities List (NPL), which constitutes appendix B of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), and requests comments on this deletion. The NPL is comprised of sites identified by EPA which may present a significant risk to public health, welfare, or the environment. Sites on the NPL may be the subject of remedial actions financed by the Hazardous Substances Superfund (Fund). Pursuant to § 300.425(e)(3) of the NCP, any site deleted from the NPL remains eligible for Fund-financed remedial or removal actions if conditions at the Site warrant such actions.

EPA will accept comments concerning this notice of intent to delete for thirty (30) days after publication of this notice in the **Federal Register**. Concurrent with this notice of intent to delete, a notice has been published in local newspapers and has been distributed to appropriate state officials.

Section II of this notice explains the criteria for deleting sites from the NPL. Section III discusses procedures that EPA is using for this action. Section IV discusses how this Site meets the deletion criteria.

## II. NPL Deletion Criteria

The NCP establishes the criteria that EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425(e), sites may be deleted from the NPL where no further response action, other than operation and maintenance (O&M) activities, is appropriate. In making this determination, EPA will consider whether any of the following criteria have been met:

(i) EPA, in consultation with the State, has determined that responsible or other parties have implemented all appropriate response action required; or

(ii) All appropriate Fund-financed responses under CERCLA have been implemented and EPA, in consultation with the State, has determined that no further cleanup by responsible parties is appropriate; or

(iii) Based on a remedial investigation, EPA, in consultation with the State, has determined that the release poses no significant threat to public health or the environment and, therefore, taking of remedial measures is not appropriate.

## III. Deletion Procedures

In the NPL rulemaking published on October 15, 1984 (49 FR 40320), the Agency solicited and received comments on whether the notice of comment procedures followed for adding sites to the NPL should also be used before sites are deleted. Comments were also received in response to the amendments to the NCP proposed on February 12, 1985 (50 FR 5862). Deletion of sites from the NPL does not itself create, alter, or revoke any individual's rights or obligations. The NPL is designed primarily for informational purposes and to assist agency management.

EPA Region IV will accept and evaluate public comments before making a final decision to delete. The Agency believes that deletion procedures should focus on notice and comment at the local level. Comments from the local community may be the most pertinent to deletion decisions. The

following procedures were used to the intended deletion of this site:

1. EPA Region IV has recommended deletion and has prepared the relevant documents.

2. The State of Kentucky has concurred with the deletion decision.

3. Concurrent with this National Notice of Intent to Delete, a local notice has been published in local newspapers and has been distributed to appropriate federal, state and local officials, and other interested parties. This local notice announces a thirty (30) day public comment period on the deletion package, which starts two weeks from the date of this notice.

4. The Region has made all relevant documents available in the Regional Office and local site information repository.

The comments received during the notice and comment period will be evaluated before the final decision to delete.

The Region will prepare a Responsiveness Summary, which will address the comments received during the public comment period.

A deletion will occur after the EPA Regional Administrator places a notice in the **Federal Register**. The NPL will reflect any deletions in the next final update. Public notices and copies of the Responsiveness Summary will be made available to local residents by Region IV.

## IV. Basis for Intended Site Deletion

The following summary provides the Agency's rationale for deletion of the Site from the NPL.

*Lees Lane Landfill Site, Louisville, Kentucky*

The Lees Lane Landfill Site is located immediately adjacent to the Ohio River in Jefferson County, approximately 4.5 miles southwest of Louisville, Kentucky. The Site, consisting of approximately 112 acres, is approximately 5,000 feet in length and 1500 feet in width. Domestic, commercial and industrial wastes were disposed of in the landfill from the later 1940's to approximately 1975. Prior to and during its use as a landfill, sand and gravel were quarried at the Site. In 1975, residents near the Site were evacuated from their homes as a result of explosive levels of methane gas. These homes were ultimately purchased by the Jefferson County Housing Authority. In 1978, monitoring was conducted to define the gas migration problem. A gas collection venting system was installed in October 1980 to intercept migrating gases.

In February 1980, the Kentucky Department of Hazardous Materials and

Waste Management (HMWM) discovered approximately 400 drums near the Ohio River bank. Over 50 chemicals were identified, including phenolic resins, benzene, and relatively high concentrations of copper, cadmium, nickel, lead, and chromium.

The drums were ultimately removed, and in 1981, the Kentucky Natural Resources and Environmental Protection Cabinet (NREPC) installed shallow ground-water monitoring wells at the Site, which revealed high concentrations of heavy metals and aluminum. On September 8, 1983, the Site was listed on the National Priorities List.

EPA signed an Enforcement Decision Document (EDD) on September 25, 1986. The EDD (similar to a Record of Decision) documents EPA's selected response action for Lees Lane Landfill Site, which included the construction of a riprap system; surface waste clean-up; inspection and repair of the gas collection system; hook-up to an alternate water supply; gas, air, and ground-water monitoring; cautionary signs and installation of a gate at the entrance to the Site. On March 10, 1987, EPA initiated a removal action at the Site to implement the EDD.

All construction activities have been completed, and EPA recently entered into an Administrative Consent Order with the Louisville and Jefferson County Metropolitan Sewer District (MSD) under which MSD has agreed to perform certain O&M activities at the Site for twenty-nine (29) years. EPA anticipates that the Commonwealth of Kentucky will enter into an Intergovernmental Response Agreement with EPA under which Kentucky will provide oversight of MSD's O&M activities. Based on current information, EPA, with the concurrence of the Commonwealth of Kentucky, has determined that all appropriate Fund-financed response actions under CERCLA at the Lees Lane Landfill Site have been completed, and also has determined based on current information that no further response actions, other than long-term O&M activities, are appropriate at the Site.

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 73

[MM Docket No. 92-16, RM-7887]

#### Radio Broadcasting Services; Hazelhurst, Jeffersonville, Mt. Vernon, Sandersville, Soperton and Tennille GA

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** This document requests comments on a petition by Jeff Davis Broadcasters, licensee of Station WVOH(FM), Channel 228A, Hazelhurst, Georgia, ALP Limited Partnership, permittee of Station WWST(FM), Channel 229A, Jeffersonville, Georgia, and Wesley James Holden, seeking the substitution of Channel 228C2 for Channel 228A at Hazelhurst, Georgia, and modification of Station WVOH(FM)'s license accordingly; the substitution of Channel 229C2 for Channel 229A at Jeffersonville, Georgia, and the modification of the construction permit (BPH880602ND) for Station WWST(FM) accordingly; and the allotment of Channel 269A to Mt. Vernon, Georgia. The proposals to upgrade at Hazelhurst and Jeffersonville require the substitution of Channel 260A for Channel 228A at Sandersville, Georgia, and the modifications of Station WSNT(FM)'s license to specify

Channel 260A; substitution of Channel 291A for Channel 269A at Soperton, Georgia, and the modification of Station WKTM(FM)'s license to specify Channel 291A; and the substitution of Channel 270A for vacant but applied for Channel 260A at Tennille, Georgia. See Supplemental Information, *infra*.

**DATES:** Comments must be filed on or before March 30, 1992, and reply comments on or before April 14, 1992.

**ADDRESSES:** Federal Communications Commission, Washington, DC 20554.

In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Dennis F. Begley, Reddy, Begley & Martin, 2033 M Street, NW., suite 500, Washington, DC 20036 (attorney for Jeff Davis Broadcasters) and Lawrence J. Bernard, Jr. 1300 19th Street, NW., suite 240, Washington, DC 20036 (attorney for ALP Limited Partnership and Wesley James Holden).

**FOR FURTHER INFORMATION CONTACT:** Nancy J. Walls, Mass Media Bureau, (202) 634-6530.

**SUPPLEMENTARY INFORMATION:** This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 92-16, adopted January 29, 1992, and released February 7, 1992. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (Room 230), 1919 M Street, NW., Washington, DC. The next complete text of this decision may also be purchased from the Commission's copy contractors, Downtown Copy Center, (202) 452-1422, 1714 21 Street, NW., Washington, DC 20036.

The coordinates for Channel 228C2 at Hazelhurst are North Latitude 31-51-15 and West Longitude 82-34-00. The coordinates for Channel 229C2 at Jeffersonville are North Latitude 32-47-00 and West Longitude 83-28-36. The coordinates for Channel 260A at Sandersville are North Latitude 32-58-23 and West Longitude 82-48-34. The coordinates for Channel 270A at Tennille are North Latitude 32-56-24 and West Longitude 82-48-06. The coordinates for Channel 269A at Mt. Vernon are North Latitude 32-10-10 and West Longitude 82-33-09. The coordinates for Channel 291A at Soperton are North Latitude 32-23-19 and West Longitude 82-42-13.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex*

*parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

[MM Docket No. 92-15, RM-7886]

#### Radio Broadcasting Services; Poipu HI

**AGENCY:** Federal Communications Commission.

**ACTION:** Proposed rule.

**SUMMARY:** This document requests comments on a petition by Lu Ann Uchida Lane seeking the allotment of Channel 240A to Poipu, Hawaii, as that community's first local broadcast service. Channel 240A can be allotted to Poipu in compliance with the Commission's minimum distance separation requirements without a site restriction. The coordinates for the proposal are North Latitude 21-52-35 and West Longitude 159-27-14.

**DATES:** Comments must be filed on or before March 30, 1992, and reply comments on or before April 14, 1992.

**ADDRESSES:** Federal Communication Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Lu Ann Uchida Lane, 3-2600 Kaunaulii Hwy., suite 3039-127, Lihue, Hawaii 96766 (petitioner).

**FOR FURTHER INFORMATION CONTACT:** Nancy J. Walls, Mass Media Bureau, (202) 634-6530.

**SUPPLEMENTARY INFORMATION:** This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 92-15, adopted January 27, 1992, and released February 10, 1992. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's
